

**UNIVERSITY OF AGRONOMICAL SCIENCES AND VETERINARY
MEDICINE BUCHAREST**

**RESEARCHES CONCERNING THE IMPROVEMENT
OF THE OLIVE TREE TECHNOLOGY IN SYRIA**

SCIENTIFIC ADVISER:

PROF. DR. CEPOIU NICOLAE

**DOCTORAL STUDENT:
SOHILA SALAMY**

BUCHAREST 2006

CONTENTS

	Page
Chap. I - THE NUTRITIONAL AND MEDICINAL VALUE OF OLIVES	5
1.1. Nutritional values and healing of olives and olives oil	5
1.2. Oil Manufacture.....	8
1.3. How olive is produced.....	10
Chap. II - ORIGIN AND SPREAD OF THE OLIVE.....	15
2.1. Origin.....	15
2.2. Spread of olive tree in Italy.....	16
2.3. The olive tree and its Links with region.....	18
Chap. III - GENERAL CHARACTERISTICS OF THE OLIVE TREE.....	19
Chap. IV - SPECIES AND CULTIVARS.....	30
Chap. V - PRODUCTS OF THE OLIVE TREE IN THE WORLD....	34
Chap. VI - CULTURAL REQUIREMENTS.....	39
Chap. VII - OLIVE CULTIVATION IN SYRIA.....	45
7.1. Natural environment.....	45
7.2 Agricultural Zone in Syria.....	47
7.3. Favorable areas for olive trees in Syria.....	51
7.4. The evolution of olive tree cultivation in 1994-2003 period.....	53
7.5. Olive requirements towards the ecopedological factors.....	58
7.6. The important varieties of olive in Syria (pomological description).....	67
7.7. Effects of Pruning on the olive fructifications.....	73
7.7.1. Biennial Cropping Nature.....	73

7.7.2. Olive trees pruning.....	74
7.8. The relation between pruning and growth power and fructification.....	76
7.9. Olive fertilization.....	78
7.10. Olive tree irrigation.....	82
7.11. Maintenance of the soil.....	85
7.12. The pruning.....	87
7.13. Olive disease.....	88
7.14. Prices.....	91
Chap.VIII – RESEARCHES REGARDING THE IMPROVEMENT OLIVE TREE CULTIVATING TECHNOLOGY.....	92
8.1. Climate conditions in Daraa.....	92
8.2. Olive varieties behavior in Daraa.....	94
8.3. The particularities of creating and maintaining olive tree plantations.....	100
8.4. Fruits settings.....	106
8.5. Contributions to the improving of the olive culture technology in the Daraa District.....	107
Bibliography.....	144
